The Black Powder Committee would like to thank all the shooters who came from near and far to compete in the Ultimate Long Range Championship. Veteran muzzleloader George Arnold came all the way from England! The weather turned out great. The wind was typical for Grayling, ranging from nearly dead calm to fishtailing tailwinds on Saturday to 15 to 25 mph winds on Sunday. As a result, the misses came fast and furious at times for even the most experienced competitors. We experienced several delays due to forest fires on Saturday and as a result we had to shorten the last stage of the day to 10 shots instead of 15. Congratulations to our nurse and guardian angel Barb Walters for setting a tentative new National Record. We hope to see everybody at the Black Powder Target Rifle Regional Championship to be held again at Grayling on Aug. 15-16. Remember, pre-registration is a must!
